

TECHNICAL DATA SHEET

Product	:	LIQUID MENTHOL
Source	:	An entirely natural isolate obtained by the fractional distillation of that oil, obtained by steam distillation from the plant of <i>Mentha Arvensis</i> , grown in India.
CAS No.	:	89-78-1; 2216-51-5
Appearance	:	Colorless to Light yellow liquid.
Odor	:	Special odor of Menthol without other odd smell.
Boiling point	:	216°C
Optical Rotation	:	-45.5 to -46 at 20°C
Specific Gravity	:	0.890 to 0.892 at 20°C
Refractive Index	:	1.450 to 1.455 at 20°C
L- Menthol	:	95 to 99%
Storage	:	In a well filled, air tight container, protected from light & heat and at a room temperature not exceeding 25 degree C.
